

# MR. MICROPHONE™

Find your superstar™

In 1970 Mr. Microphone™ made it's debut. An ingenious idea, simply speak into the microphone and your voice is instantly transmitted to the nearest AM/FM frequency on any radio.

Mr. Microphone™ was a huge success, with sales numbers that continued into the next decade. Who would have guessed a huge fad was just around the corner - KARAOKE. This product is still in high demand today and are quickly purchased when spotted at thrift shops or garage sales.

This product also led to many spin off versions like Simpsons, Donny and Marie and Toy Story.

**MR. MICROPHONE™**  
Micro sans fil en toute liberté  
Cordless Wireless Microphone  
No Audiotape  
No Amp  
Put your voice on the air!
