

Dream ♥ Phone™

Who is your secret admirer?

Girls crushing on boys has not changed over the years but telephones have!

Mystery Date® was released by Milton Bradley in 1965 – move around the board and hope your secret admirer is behind your front door. Dream Phone™ was the follow up game in the 90s utilizing the same game play but instead of your secret admirer at your front door he is now on the phone. Fast forward to today's new Dream Phone™ game design where social media is the main form of communication between girls and boys – will your crush text you, call you or send you a pic!
