CHUCK WAGON DOG FOOD™

Anyone seeing a dog chase a chuck wagon knows instantly they are about to see a Chuck Wagon dog food commercial.

Purina launched the brand in the 1970s touting the dog food would make it's own gravy when mixed with water.

The ad campaign of the dog chasing the chuck wagon into the kitchen cabinet was so popular that Atari even launched a video game called Chase the Chuck Wagon.

Last year alone the dog food market topped 50 billion dollars.
